

TravelEx - Cloud Solution for SAP Business One

TravelEx is a browser based software solution for Travel Requisition & Expense Reimbursements for SAP Business One.

Overview of Features

- 1. Create Travel Requisition with multiple heads:
 - Air ticket
 - o Hotel Booking
 - Food & other expenses
- 2. Create Travel Requisitions with multiple travelers
 - A travel requisition creates a Purchase Request transaction in SAP Business One
- 3. Validate Travel Requisition with company travel policy
 - By grade of employee
 - By city, e.g. Metro, Tier I, Tier II, etc.
- 4. Approve Travel Requisitions can optionally create Purchase Orders in SAP Business One for specific heads, e.g. Hotel, Air Ticket, etc.
- 5. Fill up Expense Reimbursement Request and submit for approval
 - Expense Reimbursements be linked to Travel Requisitions
 - o Standalone Expense Reimbursements
 - An Expense Reimbursement Request creates an Accounts Payable Invoice in SAP Business One

Reports

- 1. Purchase Orders, suitably customized, for Hotel Bookings
- 2. Purchase Orders, suitably customized, for Travel Ticket Booking
